

As we move forward, let us look to what John Foster Dulles once said, "The measure of success is not whether you have a tough problem to deal with, but whether it is the same problem you had last year."

The sooner we act on a comprehensive energy policy, the sooner we will find relief.

REPUBLICANS LOSE IN THE COURT OF PUBLIC OPINION ON ENERGY ISSUES

(Mr. DEFAZIO asked and was given permission to address the House for 1 minute.)

Mr. DEFAZIO. Mr. Speaker, after pushing through President Bush's budget cuts cutting energy conservation by 21 percent and renewable energy by 35 percent, fighting tooth and nail against reasonable controls and Federal regulation of price gouging and market manipulation in the western U.S., offering a so-called energy plan that James Watt wholeheartedly supported, saying, hey, 20 years later, it looks like they dusted off our old work.

Well, it might play well in the board rooms of my Republican friends' campaign contributors, with the energy conglomerates, but they know they are losing in the court of public opinion.

□ 1015

So somehow they are going to try a new tack, and I quote: "Congressional Republican leaders have issued dire, albeit private, warnings to the energy industry that they may not be able to block legislation imposing caps on prices or other measures designed to give the Federal Government a greater role in setting rates for wholesale energy, oil or natural gas."

So the response is spin and advertising. We are offering a real alternative, an alternative that will give relief to the people in the western U.S. from price gouging and market manipulation, an alternative that will give the American people a sustainable, renewable energy future with conservation and renewable resources.

This is a stark choice for the American people: hot air or a real energy policy that benefits consumers.

HAPPY BIRTHDAY TO THE U.S. ARMY

(Mrs. JO ANN DAVIS of Virginia asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. JO ANN DAVIS of Virginia. Mr. Speaker, since its birth on June 14, 1775, the United States Army has played a vital role in the growth and development of the American Nation. It won the new Republic's independence in an arduous 8-year struggle against Great Britain. The Army has repeatedly defended America against both internal and external threats, from the War of 1812 through the tremendous battles that finally rid the

world of Nazi totalitarianism, Japanese imperialism, and communism.

From the beginning, the U.S. Army has also been involved with internal improvements: natural disaster relief, economic assistance, domestic order, and a host of other contingencies. Our Army has a proud tradition and continues to draw great satisfaction from knowing that when the Nation was in need, it answered the call.

Mr. Speaker, I am honored to stand here today and wish the men and women of the U.S. Army a very happy birthday.

CALIFORNIA'S ENERGY CRISIS

(Mr. GEORGE MILLER of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GEORGE MILLER of California. Mr. Speaker, after months and months of watching the Bush administration do nothing to help the California consumers and the California business community with the price gouging that is going on in energy, after months of having the White House act as the puppet of the oil industry, after months of watching an administration that is full of ex-oil industry executives give private meetings to the oil industry on their energy plan, and seeing the very people who are making the decisions about our energy future hold stock in the energy companies, after months of this kind of activity and insensitivity to the Western energy users in this country, the Republicans and the White House now understand that the American people are no longer going to continue to accept this administration doing nothing about the price gouging that is going on in the western United States with respect to energy while at the same time those very energy executives of the companies that are punishing the California consumer, punishing California businesses, punishing the workers and punishing our economy are cashing stock options worth \$300 million as they gouge the people in the western United States.

PORKER OF THE WEEK AWARD

(Mr. HEFLEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HEFLEY. Mr. Speaker, only a few months after the U.S. Postal Service hiked its first-class postal rates, the quasi-Federal agency is again set to increase mail costs, this time by as much as 25 to 30 percent. The hike comes in response to the agency's projected loss of \$2 to \$3 billion this year and a report from its own Inspector General that the agency loses approximately \$1.4 billion per year in waste and abuse.

Charges of abuse at the Post Office include \$200 million worth of lavish executive parties, large-scale junkets, high-priced publicity campaigns, and

generous employee bonuses. The agency managed to rack up \$9.3 billion in debt by the end of fiscal year 2000, but has yet to put in place a repayment program for that debt.

The American consumer should not have to pay increased mail costs to repair inefficiency and waste at the Postal Service. The Postal Service gets my porker of the week award.

TRIBUTE TO HOLLY WARLICK

(Mr. DUNCAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DUNCAN. Mr. Speaker, I rise today to pay tribute and offer my congratulations to my friend Holly Warlick. Holly was inducted this past weekend into the Women's Basketball Hall of Fame in our hometown of Knoxville, Tennessee.

Holly was the first athlete, male or female, to have her number retired at the University of Tennessee. She was a star point guard and 4-year starter for the Lady Vols from 1977 to 1980. She was placed on the U.S. Olympic team that year and later played in the first women's professional basketball league.

For the past 16 years, she has been an assistant coach to the great Pat Head Summit, and the Lady Vols basketball team has won many national championships and is always ranked among the Nation's top.

Holly Warlick is an inspiration to young girls and women everywhere and one of our finest citizens. I congratulate her on a well-deserved honor, her induction into the Women's Basketball Hall of Fame.

FERC'S INADEQUATE RESPONSE TO WESTERN ENERGY CRISIS

(Ms. HOOLEY of Oregon asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. HOOLEY of Oregon. Mr. Speaker, I rise today to share with my colleagues a letter I received from William Massey, one of the three commissioners from the Federal Energy Regulatory Commission.

FERC has a responsibility by law to regulate energy prices when they are unjust and unreasonable. Californians spent \$7 billion last year on energy. This year, the energy costs were \$70 billion. The same thing is happening in Oregon. Can somebody explain to me what is just and reasonable about that?

This administration has taken a hands-off approach to the energy crisis in the West and FERC has shirked its responsibilities to maintain a fair market for consumers. Recently, I, along with my colleagues, wrote to FERC commissioners and ask they take steps to ensure that energy prices out west are just and reasonable. So I would like to take a second and read Commissioner Massey's short but appropriate response.
